ABOUT THE EVENT

Germany's energy market is undergoing a profound transformation. This session brings together legal, institutional and industry perspectives to analyse the current state of infrastructure, the evolving regulatory framework, the rapid growth of battery storage (BESS) and the investment opportunities arising from the energy transition. It will be followed by a networking reception.

WHO IS BEHIND IT

Enérgica
A business ecosystem that brings together companies and stakeholders to accelerate Europe's energy transition.

ADVANT Beiten
International commercial law firm with a strong presence in Germany, advising on energy, infrastructure and investment matters. Host of the event at its Frankfurt office.

IN COOPERATION WITH

House of Energy e.V. – Non-profit network and think tank that fosters dialogue between industry, science and politics on the transformation of the energy system.

Spanish Chamber of Commerce in Germany – Business organisation that promotes economic relations and supports companies between Spain and Germany.
